

## Washington, D.C. Estate Planning Council LinkedIn Group Announcement October 2015

We are excited to announce a [LinkedIn Group](#) for the WDCEPC! It provides an additional platform (along with the Council's [website](#)) allowing Council members to obtain information about the Council, participate in member-generated discussions and have access to estate planning news and developments.

The Council's LinkedIn group is a members-only group, so only Council members may join the group, and group discussions can only be seen by Council Group members. To join the Council's LinkedIn group, follow these instructions:

1. If you are not a member of LinkedIn, you must first join LinkedIn by going to [www.linkedin.com](http://www.linkedin.com) and filling in your name, e-mail address and a password.
2. Once on the LinkedIn site, you can find the Council's group in two ways:
  - a. Select **Groups** from the dropdown list on the left of the Search Box at the top of any page. Then type in "**Washington, D.C. Estate Planning Council**" to search.
  - b. Move your cursor over **Interests** at the top of your homepage and select **Groups**. Select the **Find a group** link on the right side of the page and type in "**Washington, D.C. Estate Planning Council**" to search.
3. When you have located the Council's group, click **Join** on the group Discussions page or anywhere on the page where you see the button. You will receive an e-mail notifying you that your Request to Join has been received by a group manager. If you utilize the same email address for LinkedIn that you use for Council communications, your acceptance should be automatic. If you use a different email address, the group manager will review your Request to confirm you are a Council member and will respond within a few days. Once the manager has confirmed that you are a Council member, you will receive an e-mail from the group manager welcoming you to the group page.

Please join and check-out the Washington, D.C. Estate Planning Council Group on [www.linkedin.com](http://www.linkedin.com). We welcome your suggestions as we continue to enhance the group page.

Best regards,

Carolyn Rogers and Molly Walls  
Communications Committee
